Highway 2, Courtice, Ontario

## CMC MEMBERS PICS

Every time you are out on a ride, pull out the cell phone or camera and snap a couple shots. Send them in to me and I can put them in the Newsletter. Show the membership where you have been. ***Here are some pics from Hammer's Lake Placid ride.***

*Here are some pics from the SAUBLE BEACH Ride.*

**\*\*\*Lots more rides will be happening so keep yourself posted by going to the National Forum to see whats next.\*\*\*** Please keep sending in your pics from bike trips to share with the membership!!!

### **PIC OF THE WEEK**

## SAFETY TIP OF THE WEEK

### **S** Low Speed Riding!

This is used in city traffic, moving off from a stop, turning around in parking lots, turning around on a road/highway to change direction.

What to do and how to practise it:

- The technique of riding your motorcycle clutch at the friction zone- the area when the clutch is released begins the engaging of the power to the rear wheel.
- Rear brake is applied creating a drag and increasing stability of the motorcycle
- No front brake use
- Throttle at constant level creating available power.
- Clutch controls delivery of power to rear wheel – need more: clutch out; need less: clutch slightly in.
- Upper body relaxed – don't fight handlebars/steering.

## FAVORITE ROADS

**Route 66** The Mother of all rides on America's Mother Road. **Covering 8 US States and over 2,700 miles** this ride will take you through some incredible scenery along what once used to be the heart and soul of the United States. Before the Super Slab Interstates were built, this was THE HUB of America and the main road to travel. Now there are many historic sites and closed gas stations, restaurants and movie theatres to remind you of how life used to be. You will need a couple of weeks at least to travel one way to really enjoy this ride. This should be on everyone's bucket list. <http://www.historic66.com/>

# Saturday Sept 26<sup>th</sup>

**\*\*\*YOU MUST let Alex or Big Paw know ASAP if you are going on this ride so we can finalize reservations for lunch!!!\*\*\***

**The CMC 094 will once again be heading up north to view the spectacular show Mother Nature puts on in fall every year.**

This year the ride will **NOT** go all the way through Algonquin Park as that is a very long day. The ride this year will stop in Dorset Ontario and lunch will be at the **TRADING BAY DINING COMPANY**. This is a great restaurant with water views and outdoor/indoor dining.

There will also be a stop at **Robinson's General Store** and the **DORSET LOOKOUT TOWER**. There is a minimal fee of **\$3 for a motorcycle** and you can **climb the tower** for some incredible views of the fall colors or you can still get an awesome view from the ground on top of the hill.

**The ride will be staging at the Southwest corner of Taunton Rd and Old Scugog Rd in Hampton at 8:30 am**

**KSU (kick stands up) 9:00 am**

**There will be a stop in Coboconk for coffee and fuel for the smaller tanks.**

**Reservations for lunch are for 12:00 pm**

**After lunch we will stop at the General store and then to the Lookout Tower before riding back home. We will be back approximately 6:00 pm ish.**
